

Grade 1 Math Auto-Grading Sampler

10 printable practice pages + answer key + free scan-and-grade companion

Print. Solve. Scan. Review.

What is included

Addition: 1-digit answers

Addition: 2-digit answers

Subtraction: 1-digit answers

Subtraction: 2-digit answers

Mixed facts within 20

Ten frames

Dot collections

Number bonds

Number patterns

Place value to 50

Also included: teacher answer key, QR-linked ScanGrade layouts, and one-page teacher instructions.

Familiar paper, faster feedback

1

Print

Use the worksheet like any other classroom printable.

2

Solve

Students write answers in pencil - no student device required.

3

Scan

Open scangrade.io and capture the whole page.

4

Review

Tap any yellow answer and confirm what the student wrote.

5

Check

Review the final marked page before using the result.

The worksheet remains useful even when you choose to grade it by hand.

Teacher review stays in control

Yellow means **please confirm the handwriting** - not that the math is wrong.

- Choose a suggestion with one tap.
- Type what the student actually wrote.
- Save an empty answer as blank.
- ScanGrade never uses the answer key as handwriting truth.

Honest beta expectations

ScanGrade marks clear answers and asks for help with uncertain handwriting.

Handwriting, lighting, page angle, erasures, and device quality can affect results. Review the marked page before using it for feedback or records.

The beta supports:

- the included ScanGrade-authored Grade 1 worksheets
- phones and tablets with a current browser
- handwritten numerical answers inside the printed answer areas

It does not promise:

- perfect recognition of every handwriting style
- arbitrary third-party worksheet grading
- a replacement for teacher judgment

If a result looks wrong, correct it, rescan it, or grade the page manually.

Try the classroom beta

Mixed Addition and Subtraction
Add or subtract.

Name _____

(A) $7 + 5 =$

(E) $9 + 4 =$

(B) $16 - 9 =$

(F) $18 - 7 =$

(C) $8 + 6 =$

(G) $6 + 8 =$

(D) $15 - 6 =$

(H) $20 - 5 =$
